

# IRT20

## Insulation Resistance Tester

### **AFFORDABLE, RUGGED, HAND-CRANKED MEGOHMETER READY WHEN YOU ARE**

- 1000, 500 and 250 Volt output ranges
- Sealed, water resistant, rugged metal housing
- Damping time exceeds 4 seconds
- Hand-crank power supply
- Accurate to within one division

# IRT20 • Insulation Resistance Tester

The IRT20 is an affordable, rugged, hand-cranked Megohmmeter that is ready to go when you are. Check motor and generator windings, power transformers, and electrical lines. It's heavy-duty construction and multiple output ranges make it suitable for a wide variety of applications, even in harsh environments.

**The IRT20 has the following features:**

- 1000, 500 and 250 Volt output ranges
- Sealed, water resistant rugged metal housing
- Damping time exceeds 4 seconds
- Hand-crank power supply
- Accurate to within one division
- One year limited warranty

**Standard Accessories:**

Test Leads.....ATL91

**Specifications**

| Voltage                              | Range                    | Scale Drive |
|--------------------------------------|--------------------------|-------------|
| 250 V                                | .01 - 250 MΩ             | .05 M       |
| 500 V                                | .01 - 500 MΩ             | .1 M        |
| 1000 V                               | .01 - 1000 MΩ            | .2 M        |
| Accuracy at 77°F (20°C)              | ±1% of full scale        |             |
| Insulation Resistance AT 77°F (20°C) | Not less than 20 M       |             |
| Damping Time                         | Better than 4 seconds    |             |
| Dimensions                           | 215 mm x 120 mm x 150 mm |             |
